GENERAL INFORMATION

SMARTSOFT

SmartSoft is an optional software application that runs on your PC or Mac and can be used to simulate the Smartfade ML control desk, edit offline and connect PC and desk via USB to provide live displays and on-screen editing functions for your show data. SmartSoft will run on a PC with Win XP, Vista or Win7 or a Mac with OSX and requires a video display with 1280x1024 resolution to display properly. SmartSoft is a free application for download from www.etconnect.com.
